About CCMA

The Construction Chemicals Manufacturers Association (CCMA) is a national body that represents the interests and concerns of the construction chemicals industry in India. CCMA was established in 2009 with the following main objectives:

- Improve quality usage of construction chemicals by creating awareness among the end-users, contractors, consultants, architects, engineers, etc.
- Skill development of the workforce of the industry for defect free application of Products.
- Identify and find solutions to common problems affecting the industry, such as raw material availability, quality control, environmental compliance, safety standards, etc.
- Represent the industry to central and state governments in policy making and establishing quality standards.

CCMA has members from across the country, comprising of manufacturers, suppliers, distributors, service providers, research institutes, etc. CCMA also collaborates with various national and international organizations such as Construction Development Council of India (CIDC), Bureau of Indian Standards (BIS), Indian Concrete Institute (ICI), Federation of Indian Chambers of Commerce and Industry (FICCI), CII, ASSOCHAM & Permanent member of ECI (Engineering Council of India), etc. to promote the advancement and innovation of construction chemicals in India.

Construction Chemicals Market Potential

The market potential for construction chemicals from 2023 to 2028 is valued at around 16,000 crore rupees. This market is being influenced by several factors, including the rise in urbanization, infrastructure development, and stricter environmental regulations. As construction projects become more intricate, there is an increasing requirement for chemicals that can improve the performance and longevity of materials. Moreover, there is a rising demand for environmentally friendly construction solutions and cost-effective building methods, which are driving the market's growth and fostering innovation in the sector.

Why to Participate as a Sponsor?

As a raw material supplier of the construction chemicals industry, you play a vital role in the growth and development of this industry. By participating as a sponsor in this conference, you will gain the following benefits:
